AI-Powered Resume Screening System

The top screenshot shows the VS Code editor with the 'resume_data.csv' file open. The file contains a list of skills and job roles:

```
1 Resume_Skills,Job_Role
2 python machine learning ai data science,AI Engineer
3 java spring sql backend,Java Developer
4 html css javascript react,Frontend Developer
5 python django mysql api,Python Full Stack Developer
6 aws devops docker linux,DevOps Engineer
7 python flask api backend,Backend Developer
8 tensorflow deep learning cnn,Deep Learning Engineer
9 sql powerbi excel analytics,Data Analyst
10 cybersecurity networking linux,Security Analyst
```

The bottom screenshot shows the VS Code editor with the 'app.py' file open. The file contains the Streamlit application code:

```
39 <h4>About This Project</h4>
40
41 <p>
42 This AI system predicts suitable job roles based on user skills
43 using Machine Learning and NLP techniques.
44 </p>
45 </div>
46
47 """
48 unsafe_allow_html=True
49 """
50
51 st.write("Paste your skills below")
52
53 user_input = st.text_area("Enter Skills")
54
55 if st.button("Predict Job Role"):
56
57     skills = Data['Resume_Skills'].tolist()
58     skills.append(user_input)
59
60     cv = CountVectorizer()
61     vectors = cv.fit_transform(skills)
```

The terminal window shows the command to run the application:

```
PS C:\Users\98kha\OneDrive\Desktop\AI_Resum_Project> python -m streamlit run app.py
```

The terminal output shows the application running successfully:

```
python
python
python
powershell
powershell
```

AI-Powered Resume Screening System

The screenshot displays a Streamlit web application running in a browser at <http://localhost:8501>. The application is titled "AI-Powered Resume Screening System" and is developed by Khadar Masthan for an AI Internship Project.

Project Information:

- Minor Project Domain: Artificial Intelligence
- Technologies Used:
 - Python
 - Streamlit
 - Machine Learning
 - NLP

About This Project:

This AI system predicts suitable job roles based on user skills using Machine Learning and NLP techniques.

Form:

Paste your skills below

Enter Skills

Predict Job Role

Terminal Output:

```
PS C:\Users\98kha\OneDrive\Desktop\AI_Resume_Project> python -m streamlit run app.py
2026-05-16 23:24:29.514 Uvicorn server started on 0.0.0.0:8501

You can now view your Streamlit app in your browser.

Local URL: http://localhost:8501
Network URL: http://10.201.52.5:8501
```
